DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/12/07 has been entered.

Response to Amendment

Applicant's amendment to claim 1 filed in conjunction with the RCE on 12/12/07 is acknowledged. In light of applicant's amendment and remarks, previous 112 and 103 rejections of record are hereby withdrawn.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The recited "consisting of" transitional phrase excludes the vinylic carboxylic acid monomer and the cationic monomer (I) required in Sato et al. (US-362) and Takeda (US-415), respectively. As closest prior art of

record, these references fail to suggest or disclose a polyelectrolyte comprising a cationic terpolymer consisting of a polymerized product of monomers (i), (ii), and (iii) as expressed in the present claims. Accordingly, the instant invention as defined by claims 1-5, 8-15 is allowable over prior art of record. Furthermore, previous withdrawn claims 11-13, directed to method of using the polyelectrolyte are hereby rejoined with the product claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
